

**She came in through the door
He just stared at her face
And from that moment on
He just fell in love with her**

**She's from a foreign land
And he barely knows her name
So far away from home
He doesn't want her to return**

he loves..... he loves carmen

**In the shore of Manila bay
He doesn't want this day to end
As she turns around and stare
At her plane flying away**

He loves..... he loves Carmen
