

Dylan and Carmen Lyrics

[Verse]

In a world so vast, our paths converged

Across dimensions, our souls immersed

A tale of love, filled with hope and fears

Dylan's heart whispers, as Carmen draws near (ooh-yeah)

[Chorus]

Echoes of our love resound, through the night

Guiding us towards a love so bright

With every beat, our spirits soar high

Dylan and Carmen, forever entwined in the sky (ooh-ooh-ooh-yeah)
