

Verse 1

In the depths of the ocean so blue
Lives a whale so mysterious and true
Their song soars through the waves so loud
A song of love that can be found

And their call gets carried with the tide
To the depths of the seascape so wide
Not many people around to tell the tale
about the wonders of the whale

Chorus

The whales in the ocean, oh what a sight
So majestic and magical in the night
The deep calls out and echos a song
A song of love that has been so long

The whales in the ocean, oh what a dream
Gliding under and through the water's gleam
The deep calls out and echos a song
A song of love that has been so long

Verse 2

The whales have been singing for centuries
Their song it still carries across the seas
As they swim around in the deep blue
The whales sing of their love so true.

Chorus

The whales in the ocean, oh what a sight
So majestic and magical in the night
The deep calls out and echos a song
A song of love that has been so long

Bridge

The whales have a story to tell
A tale of love and of farewell
It's a story that will never end
A tale of love that will transcend.

Chorus

The whales in the ocean, oh what a sight
So majestic and magical in the night
The deep calls out and echos a song
A song of love that has been so long

The whales in the ocean, oh what a dream
Gliding under and through the water's gleam
The deep calls out and echos a song
A song of love that has been so long
